REF: FG/127/20/PL

Retrospective application for the demolition of 3 No. existing buildings & erection of replacement workshop & machinery store building (amended design & siting to FG/37/17/PL). This site is in CIL Zone 5 (Zero Rated) as other development.

Dear Sir/Madam,

I am contacting you to strongly object to the ugly construction built behind my home. I strongly believe that this building should never have been approved for construction and should be taken down so that our lovely views of Highdown Hill are restored.

We have had nothing but trouble with this development since it was approved in the first place and I worry if the application is approved that we (Meadow Way residents) will then be blighted with additional noise and further unrest.

Our homes are being devalued due to the complete disrespect of the owners of Onslow caravan park, as a place of residence for each caravan owners, I am sure they have concerns about the future use of this enormous outbuilding that should only have a place on an industrial estate.

Yours sincerely,
