REF: FG/127/20/PL

Retrospective application for the demolition of 3 No. existing buildings & erection of replacement workshop & machinery store building (amended design & siting to FG/37/17/PL).

Dear Sir/Madam,

I am writing to register my disapproval of the new warehouse construction building in Onslow Caravan Park, Ferring. This building should never have been approved for construction due to its sheer size in our small village.

I have lived in my home all my life and now this construction blots out the view of The South Downs from my upstairs front windows. My worry is that if this building is approved for use, the residents in our road (Meadow Way, Ferring), will then suffer from noise pollution as well as the loss of our views. I also feel that this construction now lowers the value of our properties that are close to this.

Yours sincerely,

Marion ~~LEVER~~ LEVERSLUCH
