Subject: Application Ref. FG/129/18

Dear Sirs,

We wish to register our most serious objection to the saga of planning applications relating to 44 Ferringham Lane.

These applications having been regarded as 'not in the interests of road safety, the amenity and the environment' seem to be beyond belief.

How could such proposals, including the establishing of traffic lights, be considered reasonable, when they disrupt the activities of so many other people and exacerbate the traffic difficulties that already exist in this area?

We plead you to refuse this current application

Mr. & Mrs. T.A.Frisby
