7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (See guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

See Attached Google Earth and Photos for Tree Location
The tree is thought to be a beech.

7. Identification Of Tree(s) And Description Of Works continued ...

The proposed work to reduce the blocking of sunlight to house and garden.

Crown Thinning - 30% on S9 Ferring Lane side.

Crown Lifting - to 6m above ground on S9 Ferring Lane side only.

This should greatly improve daylight to our property.

This will also greatly reduce the amount of falling leaves onto our property which requires trailer loads to the dump currently.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

The tree required for Pruning is identified above.

Although the trunk is in the neighbouring property $\pm 50\%$ of the crown extends into my property blocking light to both the residence and garden. The shadow cast by the tree can be clearly seen.

I have discussed this proposal with the tree owner Mr Maund who is in full agreement.
