Dear Sirs,

We wish to submit our real concerns about the application submitted by Peugeot on the A259 and ask for it to be refused please.

Again, we request this under the Enough is Enough banner.

It is not our policy to object to all applications that you receive and the go-ahead for the changes that provide additional grazing area for horses is a case in point.

However, the constant attempts by garages and other commercial organisations to despoil this area, outside of the built-up area of Ferring, with extended buildings, signs, lighting etc.to us is unacceptable. We are thankful that you have agreed with us on some previous occasions.

Any additional traffic caused by this application would exacerbate the already problematic situation of vehicles entering and leaving the A259 and the proposal would certainly not enhance local distinctiveness.

Thank you,

Mr. & Mrs. T.A.Frisby
