Dear Sir

Re: Planning Application FG/135/17/PL

I am an elderly lady and the sole occupant of 3 Beehive Lane, the property immediately adjacent to the building site. I have lived here for the last five years and have never been happier – living in such a lovely village surrounded by an excellent network of friends, with all local amenities and services so close to hand, what more could I ask for?

In the first, rejected, plan for 11 flats in my objection letter I said I saw them to be incongruous. When the plans for the 8 apartments were up for debate I was uncertain as to whether I should support or object to the Planning Application. I therefore took it upon myself to arrange a meeting with Mr Harrison from Globe Estates at my home where he informed me that were the revised plans for 8 flats to be approved there would be a gap of 30 feet between my boundary and the eastern end of the apartments. He talked at some length about the landscaping, describing what trees and shrubs would be planted and that there would be benches for the residents to enjoy, which all sounded very nice.

Clearly, from a personal perspective, the erection of the 8 apartments would be far less intrusive than the rejected 11 which, if my memory serves me correctly, would have been only 10-15 feet from my boundary, and so literally taking him at his word I supported the plan for these.

Having recently returned home from a few days away I was immediately confronted by a new Planning Application placed on my fence post regarding the latest plan for a 2-bed "dwelling". I was horrified and shocked by his change of plans and this is having a direct affect on my health, giving me sleepless nights.

Putting it mildly, I feel extremely hurt and let down by Mr Harrison having reneged on what I was told at our meeting. The proposed amendment would be nothing other than a gross intrusion on my outlook from my lounge and every time I use my front door. It would also be a blight on my small back garden that I enjoy so much. It would be overdevelopment and completely out of character with the area, and it is for these reasons that I now wish to register my objection to the new proposal.

Yours sincerely
