Littlehampton.

Strong Objection FG/135/17

Dear Sirs,

I realise that objections should be brief and straight to the point, but I cannot refrain from expressing my extreme disappointment at how planning over rides so much opposition to inappropriate developments in Ferring. These are not the affordable housing that are required by Central Government but are high end developments.

We now have a developer persistent and determined to take every piece of land available, not satisfied with the block of flats, again beyond the financial reach of many, they are renegeing on that which was, after much consultation agreed upon. This appears to be the ploy of many such developers and sadly it frequently works. Therefore I would ask you to bear in mind the plans accepted, and those only, and keep this last piece of land at South Point as a communal garden area, safe for all.

Yours faithfully

Mrs.N.C
