

Foul and Surface Water Drainage Statement.

Our reference: JAC/JH/14120
Your reference: FG/135/19/PL

15 November 2019

In accordance with the Council's Validation checklist, this statement provides the details for the foul and surface water drainage for the planning proposal submitted under reference number FG/135/19/PL.

This proposal is for the demolition of a Silo and the erection of a B1(a) Office Building, 6no. car parking spaces for office workers and erection of boundary fencing at the Former McIntyre Nursery, Ferring, West Sussex, BN12 6PG.

Surface water is currently drained from the site and hardstanding surrounding the site via existing drainage, which will be maintained as part of the proposal.

Foul water will be drained from the proposed Office Building via connection to the existing drainage which serve the Former McIntyre Nursery and the existing buildings on site.
