CONCLUSIONS**PRINCIPLE**

The application site is located within the built up area boundary, where the principle of development is acceptable subject to accordance with the relevant development plan policies, as stated in SD SP2 of the Arun Local Plan. In this case, the key policies are deemed to be D DM1 and D DM4 of the Arun Local Plan. Additionally, Policy 1A of the Ferring Neighbourhood Development Plan.

DESIGN AND VISUAL AMENITY

Due to its location, the proposed development is not visible from the street scene and therefore does not give rise to any acceptable adverse impact on the character of the locality or the established pattern of the area.

The maximum height of the proposed development is 3m from ground level, which matches the existing rear projection. This is approximately 3.15m lower than the existing ridge height of the host dwelling. Therefore, the proposed development is considered to appear subservient to the host dwelling and it is not considered to harm its established character.

Therefore, the proposed development is deemed to be in accordance with D DM1, D DM4(b) and (c) of the Arun Local Plan in terms of design and visual amenity.

NEIGHBOURING RESIDENTIAL AMENITY

The proposals maximum height is 3m, which is set over 5m from the Eastern boundary of the site. Resultant of this separation distance, there is not deemed to be any significant adverse impact on neighbouring residential amenity as a result of the development. There is not considered to be a significant loss of privacy as a result of this development, as the proposal features no windows on its Eastern elevation, and even if there were, any views would be impeded by the fencing that lies between the two properties.

The proposal is deemed to accord with D DM1(3) and D DM4(c) of the Arun Local Plan.

SUMMARY

The proposed development is deemed to accord with the relevant development plan policies and as such is recommended for approval subject to the following conditions.

HUMAN RIGHTS ACT

The Council in making a decision should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as Arun District Council to act in a manner, which is incompatible with the European Convention on Human Rights.

Consideration has been specifically given to Article 8 (right to respect private and family life) and Article 1 of the First Protocol (protection of property). It is not considered that the recommendation for approval of the grant of permission in this case interferes unreasonably with any local residents' right to respect for

their private and family life and home, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general interest and the recommendation for approval is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

DUTY UNDER THE EQUALITIES ACT 2010

In assessing this proposal the following impacts have been identified upon those people with the following protected characteristics (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex or sexual orientation).

The proposal would have a neutral impact on the protected characteristics.

RECOMMENDATION

APPROVE CONDITIONALLY
