Officer name:

Title: First name: Surname:

Reference:

Date (DD/MM/YYYY): (Must be pre-application submission)

Details of the pre-application advice received:

Original response (3rd February) noted:
There is an existing telecoms installation at the site and therefore upgrading and the provision of a replacement mast, albeit of increased height, would be acceptable in principle

However, there were concerns expressed in relation to the original design in relation to structure width.

Following this initial response, a revised design was produced for a slimmer structure, although it was pointed out that operating margins were potentially being compromised, in view of the need to bring the new Emergency Services Network onto the site.

On 31st May, it was commented by the council that the revised scheme was a visual improvement, but a query was raised as to whether it might be possible to move the replacement pole to a location slightly further to the north of the adjoining tree cover

This has now been done, and the scheme that is now being submitted is as a result of the above pre-application consultation
