FLOODRISK ASSESSMENT : 8 Lamorna Gardens , Ferring, Worthing

Dear Sir/Madam I am writing to confirm that the proposed site appears to be in the flood zone .To help remove the likelihood of damage being caused by a potential flood in the future , flood risk precautions will be incorporated in the construction of the extension by means of proposed floor levels being set no lower than existing floor levels of the existing property. There will also be the provision of raised electric points where appropriate and also the provision of raised DPC's

Yours sincerely

Steve Lusted
