Subject: Prior Notification of Works to Tree(s) In A Conservation Area - FG/146/25/TC

Reference: **FG/146/25/TC**

Proposal: Re-pollard 5no. lime trees (G1) to leave a height of 6m and spread of 2m. These trees are in the Ferring Conservation Area.

Location: St Andrews Church Centre, Church Lane, Ferring, BN12 5HN

I undertook a desktop review on 2nd January 2026, which was adequate for me to determine this Town & Country Planning Act 1990 (as amended) s211 Notice.

I am satisfied this work is justified and will not result in harm to the character or appearance of the conservation area if undertaken to a high standard and at the right time.

Conclusion

I raise **No Objection** and see no reason to make a Tree Preservation Order.

Recommended INFORMATIVE: Hard pruning creates numerous and/or large wounds, incurring a physiological stress which may affect long-term health and vitality. The optimum time to prune a lime tree is spring (late) to summer.
