EH Comments:

I have reviewed the submitted discharge application including the submitted “plant noise assessment”.

The submitted noise assessment is completely inadequate with numerous errors. This report appears to have be undertaken using AI and not via a competent person. The statement and calculations are incorrect with no reference to any on site noise assessment. The NR35 curve looks at 1/3 octave band frequencies none of which have been set out in this report.

Until this assessment is under taken by a competent person I must recommend refusal of this application as it stands.
