Subject: Height of leylandii after pruning at 23 ferring street

Hi Nicola

I recently sent in an application for tree works to be carried out at no23 ferring street , ferring , which you recieved on 11th dec.

I spoke with one of your colleagues today and she informed me that you need to know the height of the line of leylandii after pruning to be able to process and complete the application , i can confirm the height of leylandii after pruning will be 7m and the crowns will be 3.5 m after pruning . I hope this is enough information to be able to complete the alplication .

Thanks john tavener tree surgery .
