Dear Sirs,

I would like to oppose the planning application FG/159/18.

The owner wants to expand to accommodate an extra 100 customers, which would mean an extra

50 plus cars approx.; the car park which he does not own cannot cope now on busy days. Hence

this would have a detrimental effect on local traffic and parking on the roads which the residents pay to maintain.

The wide verges on the surrounding roads are the gardens belonging to residents not public

foot paths, of which there are none in South Ferring.

The car park is not just for the cafe users, but also for families to enjoy the beach and surrounding

area. By having extra traffic parking on these narrow roads would impede service vehicles and buses,

who at times have difficulties getting through now.

R.Tutheridge
24 Herm Road,
Ferring.
