Bluebird Application (EG/159/18)

I strongly object to the above Application mainly due to the car parking problems. All ready vehicles are parking in the roads leading into the existing car park entry - even on occasions to my road, let alone West Drive and other surrounding roads. I have witnessed the problems our much-needed and fairly well used bus service has problems in getting through cars parked both sides of the road in West Drive.

Roads in Farning are maintained by property owners paying an annual subscription for the upkeep of our roads. We need space for our own visitors cars if we haven't adequate space on our own property.

Yes, the Bluebird is a lovely place to visit and is very popular but PLEASE no parking in our roads.
