This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals which include up to 5 residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Planning Services should be considered to be advice only, with respect to this planning application.

This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

I refer to your consultation in respect of the above planning application and would provide the following comments.

This application seeks the erection of various illuminated & non-illuminated signs at various locations within the Asda Ferring Superstore site, Littlehampton Road, Ferring.

The luminance levels of the proposed illuminated signs are below the maximum luminance recommended by The Institute of Lighting Engineers for an area such as this.

From inspection of WSCC mapping the proposed signs are not to be positioned on land considered to be public highway.

The signs are not in positions which would obstruct vehicular visibility at the access with Littlehampton Road, A259.

No highway concerns.
