Dear Mr Bannister,

I would like to apply for permission to prune and contain some of my trees at the above address and the neighbouring property, no 19 Ferring Street which we also own.

I have copied a list of the trees requiring attention compiled by my tree surgeon, Mr John Bentley of the Arun Tree Company as follows:

1. Lime trees front of house: prune out sucker growth of the lime trees and grub out self seeded trees.
2. Holly on South West corner of house: prune back
3. Pittisporum with climbers on South Boundary: prune down and grub out self-seeded Pittisporum affecting growth and light to Acer on South Boundary Wall
4. Ilex oak: prune back by 25% as this tree is hard against the house.
5. Neighbouring Robina: prune dead out
6. Self-seeded Pittisporum west of Robina : grub out
7. Prune back the remaining shrubs including the growth on the North side (no 19) to improve more space around the Mulberry
8. Remove the dead conifer leading into wild area
9. Ilex Oak – remove dead wood and crown lift (back of house, Greystoke Road boundary)
10. Ash – remove dead wood and crown lift (back of house, Greystoke Road boundary)
11. Willow no 19: prune back (as requested by neighbours)
12. Ash suckers no19: remove
13. Prune back overhanging branches from various poplar and self seeded trees at the boundary fence of Greystoke Road back of the property.

I would also like to request permission to remove two poplar trees at the front edge of my property, bordering the drive. One tree is showing signs of disease and the other has grown onto the drive, competing with the old established sycamore at the front of the house for light and nutrients. It would be my intention to improve the soil quality of that area and re-plant with a more eco-friendly neighbour for the established trees. Should you require a supporting statement from Mr Bentley, he would be most happy to supply one. We are also beginning a re-planting scheme to ensure the garden has continued tree growth under the expert guidance of Mr. Bentley.

Thank you for your kind assistance in this matter and I shall await your reply.

Yours sincerely,

(not signed-emailed)

Mrs. Helen McCutchan
