Hi Zac.

Thanks for the update, the customer is happy to go ahead with the dimensions you've suggested, as am I.

Would you want a new application with the suggested works, or, can I go ahead and book the the job in?

Many thanks

Dear Mr Venner,

This email is regarding your current application for tree consent works at 5 Ferringham Court, Ferringham Lane, Ferring.

As it stands the application is set to be refused because the Arboriculturalist believes that the proposed crown reduction is excessive. However, he has suggested alternate works, detailed below:

- Reduce the overall height of the tree by a maximum of 2m.
- Reduce the lateral spread to the north and east sides by a maximum of 2m.
- Reduce the lateral spread to the south and west sides by a maximum of 1m.

Please reply within 2 weeks so I can change this for you.

Many thanks,

Z Denton
