Hi Kathryn

I have never had to do that measurement before in any TPO applications. The branch will be pruned back to approx. 3m from the trunk.

Dear Mr Devitt-Spooner,

Sorry you are stating **by** 2m still, I need to know what the proposed measurement of the branch will be after pruning, so I need the 'pruned to' measurement. This is to enable us to easily verify if the works have been undertaken as approved, so we can see what remains of the tree.

Many thanks,
Kathryn
