Tree Preservation
Ref F.G/174/18/H
1 Monterey Pine
17 Chalet Road
Ferring BN12 5PB

Dear Sirs

We are supportive of
the removal of the Tree
Preservation Order on the Monterey Pine
detailed above.

We were originally against the Tree
Preservation Order in 2014 (Ref: TPO/FG/1/14)
and hand delivered a letter, to this effect, to
the main reception at the Council Offices.
Although we understand our objection was
not registered.

The tree is very large and will only get bigger
with time. The roots have already damaged
our fence, lifting the concrete gravel boards
and the fence panels above them. The
path around our shed has been cracked

P.T.O

and the base of our shed has been damaged.
The shed is now not level.

Furthermore the tree drops a large number
of pine needles, which do not rot, over our
shrubs and grass. In addition we are forever
having to clear our gutters of the pine needles.

As stated earlier we support the removal of
the Tree Preservation Order so that the tree
can be removed.

Yours faithfully
