Subject: FG/17/18/TC

Hi Zac

This notice was sent to me for a response, however, I note that the 6-week period for determination has elapsed and that the applicant can now proceed with the proposed work.

That said, I am satisfied that I would not have recommended we make (T1 – Portuguese laurel) the subject of a Tree Preservation Order. I recall considering this tree as part of the 'line of evergreen vegetation' referred to as T6 on a recent notice (planning ref: FG/4/18/TC) in respect of the neighbouring property.

I hope this email will be adequate for your records.

Kind regards,

Mark
