Dear Sir/Madam,

CLARIFICATION OF THE DECLARATION OF IC NIRP COMPLIANCE ISSUED AS PART OF THE PLANNING APPLICATION ATTACHED FOR (CELL SITE REF: C TIL 116488) THE EXISTING BASE STATION ADJACENT TO GREYSTOKE ROAD, FERRING, WEST SUSSEX, BN12 5JL (NGR: 509405/102776).

I refer to the Declaration of Conformity with IC NIRP Public Exposure Guidelines (IC NIRP Declaration:), sent with this application in relation to the proposed telecommunications installation as detailed above.

The IC NIRP Declaration: certifies that the site is designed to be in full compliance with the requirements of the radio frequency (RF) guidelines of the International Commission on Non-Ionizing Radiation Protection (IC NIRP) for public exposure, as expressed in the EU Council recommendation of July 1999, and the subsequent update in 2020.

This IC NIRP declaration takes into account the cumulative effect of the emissions from the proposed installation and all radio base stations present at, or near, the proposed location.

The radio emission compliance calculation is based upon the maximum possible cumulative values.

All operators of radio transmitters are under a legal obligation to operate those transmitters in accordance with the conditions of their licence. Operation of the transmitter in accordance with the conditions of the licence fulfils the legal obligations in respect of interference to other radio systems, other electrical equipment, instrumentation, or air traffic systems. The conditions of the licence are mandated by Ofcom, an agency of national government, who are responsible for the regulation of the civilian radio spectrum. The remit of Ofcom also includes investigation and remedy of any reported significant interference.

The telecommunications infrastructure the subject of this application accords with all relevant legislation and as such will not cause significant and irremediable interference with other electrical equipment, air traffic services or instrumentation operated in the national interest.

If you have any further enquiries concerning the IC NIRP Declaration: certificate or anything else in this letter, then please contact Cornerstone Community Consultation and EMF Enquiries

[REDACTED]
In the first instance, all correspondence should be directed to the agent.

Declaration of Conformity with IC NIRP Public Exposure Guidelines
(IC NIRP Declaration:)

Telefonica (UK) Ltd, 260 Bath Road, Slough, Berks, SL1 4DX

Declares that the proposed equipment and installation as detailed in the attached planning/GPDO application at;

PROPOSED UPGRADE OF THE EXISTING BASE STATION ADJACENT TO GREYSTOKE ROAD, FERRING, WEST SUSSEX, BN12 5JL (NGR: 509405/102776).

is designed to be in full compliance with the requirements of the radio frequency (RF) public exposure guidelines of the International Commission on Non-Ionizing Radiation Protection (IC NIRP), as expressed in the EU Council recommendation of 12 July 1999 *(and the subsequent update in 2020) on the limitation of exposure of the general public to electromagnetic fields (0 Hz to 300 GHz): .
