Subject: FG/184/21/PL

Dear Planning,

I refer to the above application for planning consideration. I can advise that Environmental Health would recommend the following comments when deciding on the application.

Construction hours condition

No demolition/construction activities shall take place other than from 08:00 hours until 18:00 hours (Monday to Friday) and from 08:00 hours until 13:00 hours (Saturday) with no noisy work on Sunday or Bank/Public Holidays.

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

Construction Management

No development shall take place, including any works of demolition, until a Construction Management Plan has been submitted to, and approved in writing by, the Local Planning Authority. Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. The Plan shall provide details as appropriate but not necessarily be restricted to the following matters:

- a) An indicative programme for carrying out of the works;
- b) Details of the arrangements for public engagement / consultation both prior to and continued liaison during the construction works;

- c) Measures to minimise the noise (including vibration) generated by the construction process to include hours of work, proposed method of piling for foundations, the careful selection of plant and machinery and use of noise mitigation barrier(s);
- d) Details of any floodlighting, including location, height, type and direction of light sources and intensity of illumination;
- e) The parking of vehicles of site operatives and visitors;
- f) Loading and unloading of plant and materials, including permitted times for deliveries;
- g) Storage of plant and materials used in constructing the development;
- h) The erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate;
- i) The provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulations Orders);
- j) Measures to control the emission of dust and dirt during construction;
- k) A scheme for recycling / disposing of waste resulting from demolition and construction works i.e. no burning permitted.

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

Informative:

- The applicant's attention is drawn to the requirements of the Environmental Protection Act 1990 and the Clean Air Act 1993 with regard to burning on site. A statutory nuisance may be caused by smoke and ash from fires or noise from the cutting or chipping trees. In addition, air quality could be adversely affected on large projects. The granting of this planning permission does not permit a statutory nuisance to be caused. The Environment Agency should also be contacted regarding Exemption Permits to burn on site.
- The granting of this planning permission does not in any way indemnify against statutory nuisance action being taken should substantiated complaints within the remit of the Environmental Protection Act 1990 be received. For further information, please contact the Environmental Health Department on 01903 737755.

Unsuspected Land contamination - condition

If during development, any visible contaminated or odorous material, (for example, asbestos containing material, stained soil, petrol / diesel / solvent odour, underground tanks or associated pipework) not previously identified, is found to be present at the site, no further development (unless otherwise expressly agreed in writing with the Local Planning Authority) shall be carried out until it has been fully investigated using suitably qualified independent consultant(s). The Local Planning Authority must be informed immediately of the nature and degree of the contamination present and a method statement detailing how the unsuspected contamination shall be dealt with must be prepared and submitted to the Local Planning Authority for approval in writing before being implemented.

If no such contaminated material is identified during the development, a statement to this effect must be submitted in writing to the Local Planning Authority.

Reason: To protect the amenity of local residents in accordance with Policy QE DM4 of the Adopted Arun Local Plan 2011 – 2031

Asbestos

The owner(s) of any domestic property built or refurbished before the year 2000 are legally obliged to protect householders from any risks from work activities being carried out in their homes. Where the work being carried out involves Asbestos-Containing Materials (ACM's), then the Control of Asbestos Regulations 2012 will apply. As the proposed development is being demolished and / or renovated, the Council need to be satisfied that any ACM's previously identified as still present, is either removed or suitably managed to minimise risk to human health as there is no safe threshold for asbestos exposure.

Within any owner-occupied domestic properties, the owner(s) are not legally responsible for risks to contractors from asbestos, as the owners themselves are not engaged in any work activity.

NB: If you are planning any DIY home improvements, repairs or maintenance – and intend to bring in any additional builders, maintenance workers or contractors to site – you must inform them of any ACM's in your home before they start work. This will help reduce the risks of any ACM's being disturbed. The domestic enforcement authority; the Health and Safety Executive (HSE) strongly encourages the use of trained professionals to repair or remove ACM's. If an owner / occupier chooses to carry out DIY repairs or remove damaged asbestos materials themselves, they must make sure the right Personal Protective Equipment (PPE) is used and always follow safe working methods. In addition, please be aware that ACM's need to be legally disposed of as 'hazardous waste'. The removed materials should not be mixed with normal household waste. Arrangements must be made to have any ACM's collected by a competent person(s) or there may be special facilities in an area where you can safely dispose of it.

Reason: To protect the amenity of local residents in accordance with Policy QE DM4 of the Adopted Arun Local Plan 2011 – 2031
