I read with interest the five separate emails received from you earlier this afternoon, with the updated system correspondence for Barnfield House, clearly an entirely different application.

I have to say following the shambolic meeting on June 21st, with Mr Wood mumbling and bumbling his way through his presentation, I have never witnessed anything so utterly unprofessional in its delivery. It really isn't a surprise that the wrong information now appears to be on the file. Your department is a disgrace at best.

I found it somewhat ironic that the meeting was suspended for a time because of someone drilling on a floor below and you couldn't hear yourselves properly, yet you feel it's more than acceptable for a disabled pensioner to have their life and the amenities that they enjoy, to be turned upside down for months on end, only to be told by Mr Baeza that certain issues such as these are not planning considerations.

It was also ironic that the only person speaking in favour of the application was a former resident of Blue Waters, that loved the location so much, she no longer lives there. I've never heard so much Bus Service information delivered in an allocated three minute time slot.

I await with interest, any correct information that you may wish to post.
