Mr Wood, can you please confirm that the new underground car park layout has been submitted to WSCC in order that the swept path for vehicles entering bays 7, 8, 9 and 10 can be evaluated. It does not appear to be on the website and having spoken to the Area Highways Manager for WSCC yesterday they do not appear to have received anything. The change in layout **necessitates** a new set of calculations. When will this document appear on the website please?

Also, please confirm the precise size of the revised parking bays. The printouts my Clerk obtained off the website are too small to allow accurate scaling and the bays have obviously shrunk considerably. .

The Parish Council are due to consider this application again on Monday 17th and we do not currently have all the necessary information. The plans have only been reissued piecemeal and there is nothing showing the two external parking spaces. This is unsatisfactory. The plans should have been issued again in their entirety as no part of the application was approved by the DCC. The entire planning application will have to be heard again, not merely the revised parking.

Please ensure this communication and the reply are posted on the planning portal asap.

Thank you,

Carole Robertson,
Chairman, Ferring Parish Council
