Dear Mr Baeza

As you and I both know that the comment by Michael Pearce that you cannot get fixed roof windows with opaque glass is false. We have seen them on several roofing manufacturers websites.

We don't understand why this is being dragged out, as it has been, when we know full well that you are going to pass it by reading the comments between yourself and the Agent Michael Pearce.

You have allowed the Agent's statement to be put on the website at this very late stage to back up your decision.

The complaint mainly is the fact that there were very few planning conditions and that have been deliberately ignored.

What is the point of planning conditions ? if they can be ignored and do exactly as they like.
