Dear Sir / Madam

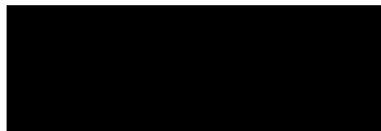

Regarding Planning Application FG/20617/PL, installation of a six pump / 12 filling station, drive-to-pay kiosk and associated works including jet wash, air / water services and vacuum equipment at ASDA, Littlehampton Road, Ferring:

As a local resident living on a housing estate bordering ASDA, I am writing to express my support for this development. If a petrol station is established at ASDA it will provide a much-needed facility for the motorists of Ferring and surrounding areas, on a stretch of road from Worthing to Littlehampton which is not well served with opportunities to fill up. Furthermore, in the light of the fact that the road to Littlehampton is to be up-graded in the next few years, this development would seem to be entirely appropriate.

ASDA does not present any problems locally, with little noise or other problems, and the petrol station would not add significantly to this. As regards traffic flow on the dual carriageway, it would be unlikely to have a major effect; the road is already a busy one and the traffic control for entrance and exit from ASDA (via traffic lights) works adequately and would continue to do so. Any light pollution from advertising signs would be amongst the existing road lighting and there are no residential properties which would be significantly affected by this.

I am aware that there is some local opposition to the development and that representations will be made objecting to the application. I feel that it is important, therefore, that you are informed that this opposition is not unanimous.

Yours sincerely

Stephen Horne
