Dear Anita,

I'm writing to you regarding the above planning application - Ref FG/206/17/PL (Asda 24 Hour Petrol Station)

My wife, my young son and I have recently moved in to the Taylor Wimpey new housing development (Greenside) and have recently found out by pure luck about this proposed development.

I would like to ask why nobody has been notified on this site about this development? Surely we should have all been written too as this will massively impact on all our lives. It is complete unacceptable.

We are all new home owners with young families who have invested our life savings in to a safe home. To find out we are going to have a 24 hour petrol station at the bottom of our gardens is completely unacceptable.

There are so many things that will effect all of us who live here.

- * Loss of property value
- * Pollution
- * Noise
- * Increased Traffic on a extremely congested and busy road

These are just a few concerns which spring to mind.

This petrol station is not needed or wanted by the community of Ferring. I strongly urge you to think about the people of this area who will have to live with this and ask you would you want it at the end of your garden?

I would also like to know when the meetings are regarding this proposed development so the Greenside residents can attend.

I look forward to your response in this urgent matter.

Thanks

Peter Blakeney
