Subject: Re 44 Ferringham Lane FG /20/20

Good morning Anita.

Concerns have been raised with me as ward member regarding this application.

It is clear from the planning history of this site that visibility splays are a requirement .

Such planning conditions were part of the Inspectors decision .This application would be contrary to the planning approval and conditions and as such should be refused .

It is implied in the application that such conditions could be discharged . Can you please clarify how this could be the case as it would contrary to planning procedure .

Kind regards

PS. Is the full letter from Appleton planning on the system as the letter ends in and , is there a further page missing ?

Roger Elkins
