Dear Sir

No. 10 The Poplars, Ferring

I note that the plans for the above do not show any foul or rainwater drainage. I believe that the foul drainage from No. 9 runs at the rear of No. 10 and will therefore pass under the new proposed building. As you will appreciate the drain is very old, may possibly leak, and may not be of a material that may be suitable for building over. I am not sure whether this comes under planning or some other body and hope you will pass this potential problem to the correct department to deal with.

Yours faithfully
