Objection to Development

Copies to planning dept - Roger Elkins - Colin Oliver-Redgate

Dear Sirs

I have been made aware that planning application FG/220/18 has been superseded by an amendment, why hasn't this been notified via yellow notices? I also understand that there is a time limit for raising objections on this amendment.

My objections remain broadly the same as my previous objections letters which I hope you still have on file, I will however reinforce these with the following observations.

Arun council along with other councils along the coastal belt and elsewhere have met obligations imposed on them by central government to meet projected housing needs. This has resulted in the destruction of vast areas of open spaces with high density development. This should surely obviate the need for infill developments in villages & towns that are clearly not in the interest of local people, such local developments are surely to satisfy the greed of speculative individuals. Greed as opposed to need is a cancer that is slowly killing this planet.

Along with your obligations to our illustrious leaders you have an obligation to consider the interests of local people. Please give these matters your fullest considerations. Why should we have to accept undesirable change to our environment just to benefit individuals with no interest in the area other than its potential to line their pockets.
