Subject: FG/220/18 - Tamarisk Way

Dear Andrew,

I am writing to express my concerns at the above development, as follows:

- 1) It is clearly a case of "Over Development", squeezed into the garden area, and out-of-character with the street scene.
- 2) There are ongoing "Drainage" problems in the immediate vicinity, without this development taking place. There is a natural, high water-table in nearby fields with a history of flooding, which has often compromised local drainage, which in turn, was not designed to take ANY extra build-up of pressure from new developments.

I would therefore like my views, as a Ward Councillor, to be added to other 'Objections' to this development, along with those of Ferring Parish Council.

Yours sincerely,

Cllr. Colin Oliver-Reigate

Ward Councillor for Ferring
