Dear Mr Wood

Having checked the Arun DC website in relation to the above application, I note that in the last couple of days a number of historic letters or e mails from Mr and Mrs Sims from Magalia, Tamarisk Way have appeared.

I'm aware that they have recently been in contact with you in relation to a letter and a number of photographs that they hand delivered to your office on Monday 29 April after our meeting with you on the previous Thursday 25 April. I understand that you confirmed to them that you had received this letter and photos, and that they would be taken into account when the application is eventually decided. We believe that they are important documents.

Can you please let me know why these haven't then as yet been included on the website file so that it can be publically seen that they are part of that process?

Thank you.

David Bettiss
