Subject: Oppose planning permission Ref: FG/29/20/PL

To Mrs A Gardner

My name is Andy Roebuck and I live at number 6 Meadow Way and I strongly oppose the new planning application, the building is larger than we were told it would be and our view of the downs is now just a distant memory. I cant believe that they need to extend the building anymore its huge! Being a North facing garden we don't get a lot of sun and now with plans to elevate the roof we can say goodbye to that in the evenings. The original planning application section 6 states that the building cant be seen from a public road or footpath , that is a joke as a public footpath runs parallel with building and can be seen from Meadow Way. I do hope that the neighbours of Meadow Way will have a fair hearing this is a lovely village that is becoming more industrial year on year. I have taken pictures from my garden , bedroom and Public footpath showing this monstrosity of a building that should not be given planning permission.

Regards

Andy Roebuck
