Subject: Re: No more work on onslow caravan park, Ferring

To whom it may concern

REF: FG/29/20/PL

I live at 12 Meadow Way, Ferring, behind Onslow caravan park. A few years ago they took all the trees down that divides them to the Rife, taking away all the habitat for the wild life. They have then built a monstrous building that seems to have got bigger & bigger that spreads the length of several houses, with a pitched roof, blocking any views. Recently they have wanted to make this bigger. They seem very secretive about their plans & about what this gigantic building is for & very determined to do as they like without thinking about their own lodgers, people that live around the area or the environment. It my understanding they are polluting the Rife that runs between us. They, also, in the neighbouring road have had massive trucks go through. As the road is small with cars parked one side, they have churned up the grass verge, from the bottom of Onslow drive up all the way to the caravan park when we had extremely wet weather & have completely ruined it.

All objections have not touched or been ignored by them which makes me feel they are very devious & secretive & there are many rumours what it is going to be used for, we are all very concerned about the seemingly secret end game for enormous barn & the effect it will have on our lovely village.

Sorry for my late objection, I work in Home Care & have been very busy in this strange & unusual times

Yours sincerely & stay safe

Dusty Clark
