Morning Damian,

Ref: 3895308 v1

Just a quick update. I have been in discussions with Ian Hayward at West Sussex and he will hopefully be getting his report over to you regarding conditions 4 and 5 end of this week or Monday next week. Ian has advised on some further information to be added to the site setup plan (BAA 1050). Please find attached a copy of BAA 1050 Rev.B for your information. I will be uploading the revised drawing onto the portal this morning.

I will bring the full package of information as discussed on the telephone to your offices as soon as I have received West Sussex Councils report.

I appreciate all the time and advice you have given us to help resolve these issues and look forward to fully discharging all conditions at your earliest opportunity.

Many Thanks

Kind Regards

Oliver
