**Subject:** FG/2/19/PL - Beach Huts Ferring Beach

Dear Mr Wood,

Following our telephone conversation earlier today and as requested, we can confirm that the third beach hut (unit 3) will be clad with a James Hardie fibre cement cladding plank (cedar texture finish) like others but will change the colour to Boothbay Blue as discussed. Please see attached picture which is taken from the James Hardie website gallery. The other two beach huts (unit 1 & 2) which are currently light grey / off white will have their doors painted brilliant white or clad with artic white cladding plank to provide some contrast.

Also as discussed, my client was misinformed by his solicitor regarding applying for planning permission. They were not aware of the extent of the works and this is something my client discussed with Tracey

Headley-Smith. Mrs Headley-Smith informed my client that the works do require planning approval and as such all works stopped on site and I was approached to submit a retrospective application.

Should you require any further clarification please do not hesitate to contact us.

Kind Regards

Oliver
