2nd June 2017.

Zac Denton. FG/32/17/T

RECORDED DELIVERY.

In answer to your strange undated letter received yesterday.

Firstly. The exate date, if tresspass, apparatus used, etc. etc. is most easily obtained by yourself, just ask him and let me know.

Now then. The 'decay' as anybody in fact looked would see is close to the trunk, This would make Crown Reduction of no use. Do come in person and view the situation for yourself.

I rang your office at 3.00pm on Mon. 8th. May 20017 and spoke to Andrew Wood (who should you listen to my recording very confused and undecided). However you have had my telephone number for a long, long time thus you could have contacted me very easily . The nonsense about the supposed letter from yourself dated 30th Mar. 2017 was NOT received . Is this yet another of your 'lost in the post' efforts?. I have no doubt that by this time you can produce a 'copy' of same. I send this RECORDED DELIVERY just to cheat you of this much outdated excuse!

Lastly, your written words 'the Tree Officers' comments are central when making a decision. This appears so strange, inasmuch he 'Approved' the 'crown reduction' but you ignored this and YOU 'refused'.???

I send copies of this letter to th Leader of the Council and Roger Elkin.
