Planning Ref FG/33/18/PL

Dear Sirs,

I work in fencing and walk my dog daily during my lunch hour past the site. I would like to support this application as the polytunnels that are there are an eye sore and are out of character with the rest of the units which are all industrial and commercial. These units are not on the national park and can not be seen from Highdown Hill also no where near residential property

No nobody to be disturbed.
