Dear Sir

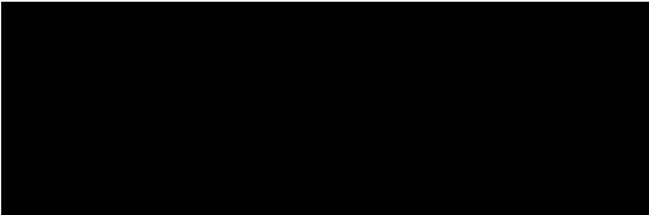

Proposed Alterations/Rebuild at 50 Ocean Drive, Ferring
Application No. FG/34/21/HH

We would like to register our objections to this development. The property planned seems to be completely out of character with the rest of the area nearby. It will completely encompass the bungalows next door and what looks like first floor balconies will overlook every property in the vicinity including South Drive, depriving residents of these properties privacy in their houses and gardens.

Although there appears to be a "privacy screening" it seems to be to obscure the balconies from the side but will not prevent the occupants having a complete overview of all properties in the area.

Thank you for your kind consideration in this matter.

Yours faithfully

John and Barbara Smith
