FAO - Nicola Moore

Further to your letter dated 27th March 2019, I have now liaised with the chosen tree surgeon. He has confirmed the following:

- 1) The work to the Eucalyptus tree does consist of a Crown Reduction up to a maximum of 6 metres.
- 2) The work to the Cedar Tree is a reduction to the northwest aspect/side of the canopy by up to 2 metres on the lowest branches.

I hope that this now provides you with sufficient information to process my application and for it to proceed as swiftly as possible.

Regards
Tracy Randall-May
