Dear Sirs,

I strongly object to this application on enlarging the Peugeot showrooms with new buildings extra parking area and car storage for Honda showrooms as this is turning a countryside area in the Angmering - worthing gap into a built up area, as in the Ferring Neighbourhood Plan any further development must be for agriculture or related to keep this green area rural at

Highdown in the National Park.
The lovely views and landscape
would be lost with all this
extra development.

I also object to the demolition
of a perfectly good livable
Bungalow when homes are needed
not car storage.

Also all the extra traffic this
would create on an already over
congested A259.

Yours faithfully
