Hello

Apologies my explanation wasn't the clearest however the location plans red outline needs to show the site as seen by my blue outline (which needs to be red) and not the ownership. I understand the applicant only owns part of the site on this application and part of it is privately owned however this doesn't need to be shown on the location plan. All that is needed is a solid red outline around the entire site including the access.

I hope this makes more sense.

Kind regards

Sian

Dear Sian

The car park does not go over all of the area. I'm not sure what is shown on your GIS but please can you provide more details as I'm not entirely sure what you mean.

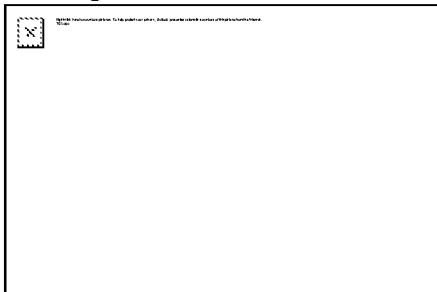

Many Thanks

Dear Oliver

Thank you for your email however according to our Gis and your plans the car park is going across the whole of the area. I have outlined the area in blue where the red outline should go. Please follow that outline in red and include the access.

Kind regards Sian
