Subject: FG/46/19

Mr Denton: Further to my representation on FG/46/19, I am trying to attach a section of the WSCC Definitive Map of Rights of Way etc, showing the footpath at the north-west edge of the application site. You will see that it does have a number: 2110. Alternatively, you can see it on the attached copy of a printed version. The footpath is already obstructed in places and I am drawing the attention of the Rights of Way team to the present obstructions and the current planning application – Ed Miller (Secretary, Ferring Conservation Group)
