Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No: FG/46/21/PL
Site Address: Land between 11a The Grove and 30 Brook Lane Ferring
Description of works: Development of 1 no. 2 bed house set over 2 floors, with first floor being partially contained within roof, along with associated parking & amenity spaces. This site is within CIL Zone 4 and is CIL liable as new dwelling.

Thank you for your internet representation made on 21st April 2021 which has been recorded as support with the comments as follows:

OWPC35280

Having looked at the plans for this proposed development I can only add my full support.

I am in property development personally and look at all applications made in the Arun area and this proposal struck me as a good use of a currently derelict piece of land with a 2 bedroom property, designed to fit in with surrounding buildings sympathetically.

What I appreciated most was it has been designed to be built with renewable materials where possible and the design has incorporated triple glazing, unusually high insulation, air source heating and hot water plus heat recovery system. This type of build should be encouraged. There is no use of fossil fuelled boiler, this is the way forward for all developments whether one off new builds or larger sites.
