Details of the pre-application advice received

The character of the area is reasonably varied, however, it has an open and spacious character. The proposed dwelling is sited within the back garden of the host dwelling, and is of a similar scale and appearance to the existing dwelling at 1 Sea Drive. However, the construction of a dwelling within the rear garden is considered to be at odds with the layout of the area and result in a harmful impact upon the character, and appearance of the area. The establishment of a separate dwelling, and the resultant associated intensification of the plot are considered to have a harmful impact upon the character of the locality and application sites relationship with the area. The proposal is considered to conflict with J.01 of the Arun Design Guide with relation to its form and character.

Furthermore, it is noted that the proposal has a similar building line to the host dwelling, however, this also results in the introduction of a large flank wall into the views when looking Southwest along Sea Drive, far forward of the neighbouring dwelling to the North. This is considered to cause the proposed dwelling to appear incongruous within the street scene, as it appears too far forward within its proposed siting.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
