Huw,

Thanks for the recent discussion. I can confirm your agreement for an EoT until 25 September.

We will be in touch once we have discussed the proposed condition with our drainage engineer.

Daniel Vick

Hi Dan,

Thanks for your email and the additional consideration is appreciated.

We will agree an EOT as this matter has gone on for years now as you know. A suitable drainage condition should be applied here – it's a brownfield site in the built-up area surrounded by housing and to continue to pick apart the infiltration and monitoring information that could easily be agreed between engineers is not appropriate.

I'm around this pm.

Kind Regards,

Huw James

Director, MRTPI

Huw,

Kathryn has shared with me your email of 9 September at 09:25 following on from some recent decisions made by Planning Committee.

The matter has been referred to the Group Head of Planning and Building Control. He has asked that consideration be given to wording of conditions regarding drainage. We are in the process of doing this but would need to discuss the matter with the Council's Drainage Engineer who is not available until Monday.

The report on this application had been prepared for refusal on the basis of drainage advice. To give us an opportunity to properly review the matter and if necessary re-write the report and agree pre-commencement conditions we would require you to agree a suitable EOT.

I understand that you are at an event this afternoon but if you would like I can discuss the matter tomorrow and am available other than 14:00-15:00
