Subject: Condition discharge request FG/56/17/PL - Grenyers Field, Ferring

Dear Andrew,

in confirmation of our earlier conversations I confirm that the email referenced, of 26th July 2017, has regard to the wording of the original condition (Condition 5) as set out in FG/104/14/PL. With regard to the varied condition under FG/105/17/DOC I confirm that the verification report demonstrating completion of works set out in the approved remediation strategy is acceptable and EH have no objection to the discharge of Condition 2.

I understand that the contaminated soils have been removed to the public open space area and further evidence of compliance with the verification report relating to the area of public open space will be submitted in the future to support a request to discharge condition 1 of FG/56/17/PL.

Kind regards,
Colin Giddings.
