

Bin Storage and Collection Provision.

Our Ref: JAC/JW/12862
17th April 2018

In accordance with the Council's Validation checklist this statement provides the details for the storage and collection of bins for the planning proposal submitted under reference number FG/56/18/PL. The proposal is for the change of use and conversion of the existing grain silo into B1(a) office space, with associated parking at the former McIntyre Nursery, Littlehampton Road, Ferring, BN12 6PG. the proposal will provide approximately 75m² of B1 office space.

The unit created will have both recycling and normal bin storage and collection. It is understood that this can be provided through wheelie bins as this is a small scale development and collected by the Council as per normal refuse collection at the site.

The bins will be screened by way of the external fencing of the entire site, as well as by the building and fencing proposed. The Bins will be stored adjacent to the building.
